

# Math leads to great careers!

10 bags of apples, each of which contains 20 apples. If he eats 8 apples, many days will it take him to eat the 10 bags of apples?

**Euclid** was a mathematician who lived and taught over 2300 years ago. His work in geometry paved the way for the development of computer graphics and animation.

**Mike Jutan** studied math and computer science at the University of Waterloo. As a research and development engineer for *Industrial Light and Magic* (a division of *Lucasfilm Ltd*), Mike uses math to create movies.
