

Problem of the Week

Problem A

Purchasing Pencil Crayons

Mrs. Zhang needs to buy pencil crayons for her classroom. A local store is running a sale where the shopper will receive a free box of pencil crayons for every 4 boxes purchased. Her teaching partner, Mr. Holland also mentioned that he needs 5 more boxes of pencil crayons for his classroom. How many boxes of pencil crayons must Mrs. Zhang purchase in order to get 5 free boxes to give to Mr. Holland?
