

Ethics of Analyzing Speech

For each of the following statements, select how much you agree or disagree.

People reveal a lot about themselves when they speak.

1	2	3	4	5
Disagree				Agree

I could identify someone's age by listening to them speak.

1	2	3	4	5
Disagree				Agree

I could identify someone's ethnicity by listening to them speak.

1	2	3	4	5
Disagree				Agree

I could identify how someone is feeling by listening to them speak.

1	2	3	4	5
Disagree				Agree

Voice assistants are pretty accurate when it comes to understanding speech.

1	2	3	4	5
Disagree				Agree

Voice assistants are pretty accurate when it comes to identifying traits of the speaker.

1	2	3	4	5
Disagree				Agree

I am worried that voice assistants may make incorrect assumptions about me.

1	2	3	4	5
Disagree				Agree

I am careful about what I say around voice assistants.

1	2	3	4	5
Disagree				Agree

I am okay with tech companies recording my voice data for artificial intelligence training purposes.

1	2	3	4	5
Disagree				Agree

I am okay with tech companies recording my voice data in order to send me more personalized advertisements.

1	2	3	4	5
Disagree				Agree
