

Problem of the Week

Problem A

My Beating Heart

- A) My resting heart rate is 21 beats in 15 seconds. Predict my number of heart beats in 1 minute.
- B) After skipping rope for 1 minute, my heart rate is now 30 beats in 15 seconds. Now, predict my number of heart beats in 1 minute.
- C) If I skip for 10 minutes and my heart rate continues to be 30 beats in 15 seconds, predict how many times my heart will beat in 10 minutes.
