

Problem of the Week

Problem A

Chasing the Great One

Auston McCrosby (a professional hockey player) has earned 1000 points (goals and assists) in his career so far. Wayne Gretzky, the highest point getter of all time in the National Hockey League, scored 2875 points in his career. If Auston averages 2 points per game in an 82 game season, approximately how many more seasons will he need to complete in order to reach Wayne Gretzky's record.
