

Problem of the Week

Problem A

Healthy Eating

Ms. Morgan's health class is discussing healthy eating choices. She asked 9 of her students to write down how many servings of fruits or vegetables they eat every day. The following chart shows the results.

Servings of Fruits or Vegetables per Day

Student's Name	Number of Servings
Vlad	3
Tessa	2
Shaheed	4
Maja	2
Mike	3
Braydon	2
Priya	6
Juan	2
Layla	3

Given this data, what is the *median* (the number in the middle of the data when arranged in order) and the *mode* (the most common number) for the number of servings of fruits or vegetables consumed in a day by these students in Ms. Morgan's health class?
