

## Problem of the Week

### Problem A

#### Enough Money?

Rosa has six dimes, seven quarters, three \$5 bills, and one toonie. She would like to purchase some Lego<sup>TM</sup> for \$20.00. Does Rosa have enough money? Justify your answer.

In Canada, a dime is worth 10¢, a quarter is worth 25¢, a toonie is worth \$2.00, and 100¢ is equal to \$1.00.
